\* Comment. In July and early August, the Hindenburg Kaserne was reportedly occupied by a guard detail by source of this report and another source. The signal unit reported in this report is probably a signal unit of the Third Shock Army which is permanently stationed in the installation. The motor vehicles observed also belong to this army. The assignment of the infantry unit is not known. There is a possibility that recruits of the Third Shock Army receive basic training there. The information on the occupation of the Flak Kaserne and the Encke Kaserne indicates no change since previous reports. See
